As per the lease you signed, you pay equal installment 12 equal instalment of \$874.00. We will not be refunding the 4 days of rent to you.

Good luck in your apartment search

Thank you

Subject: Re: Lease

Hi Good Morning,

I discussed my problem with yourself. I looking an aptment of rent 730 \$. I am not satisfied with the leaving date of lease which is 18th December. I feel you guys are eating our rent gradually and one day I would be completely devoid of my one month's rent. I want a whole month policy. We are paying whole month's rent not just 18 days of rent.

Kindly change your lease dates. Also if leave on 26th July, I would like to request you to kindly return my 4 days rent.

Hope you would satisfy my concerns.

Zulfi.

Subject: Lease

I wanted to check in with you regarding the signing of the lease contract. As it is electronic, our system sets an expiration time on the availability to sign the contract online. One person was able to sign the contract before the lease expired however, one person had not signed the contract before the expiration. I have reset the contract so that both you and your guarantor are able to sign the contract. Please keep in mind that both parties must sign the contract before _____ or I will have to reset the contract again. Should only one-person sign before that date and the other does not, I will have to reset it and that person will have to sign again each time both parties do not sign within the designated time frame.

I also wanted you to know that I am running out of short term leases if you lease is not signed by the above date you will have lost your short term lease and will have to sign a renewal for a year.

As always, please let me know if you have any additional questions.

Cordially,

Jeannie Harvey
